

From start of development to December 2007, AP Charitable Trust expenses over £10,000 received through Freedom Of Information Act

Our Aims

■ Stop any grant of a long lease of the Palace that's not for charitable purposes. The 1900 Alexandra Park and Palace Act provided that both Palace and park be held on trust "for the free use and recreation of the public for ever"

■ Safeguard the original site of the world's first high-definition broadcasting and to preserve the outline of the original studios A and B

■ Reconstitute AP's Trustees back to representatives of the **whole** of London and of the nation, capable of and interested in maintaining the Palace and Park for public use under its trusts (e.g. various councils in North London, The GLA, English Heritage, BBC, The Arts Council; individuals who have experience in community, heritage and educational areas.

The Palace is a unique national public asset and should be cherished as such.
