

SECURITY TIPS

for a safer more secure property

Your family, your property and your home are your most valuable things in life. **Protect** them and **keep them secure** by following some simple tips and advice from **YOUR LOCAL NORTH LONDON** security industry specialists.

1. Fences, walls, and hedges should be high enough to deter a thief, but not so high as to allow them to work unseen.
2. All external doors should be solid, fitted with **high quality locks** and **deadbolts**.
3. Don't leave unattached ladders outside the building.
4. When you are away leave several lights on a **random timer**, set up between 8 - 11pm; avoid on/off timers. Also cancel deliveries and perhaps divert landline numbers.
5. Don't leave a spare key under a mat, in a flower bed, under a rock etc as burglars know where to look.
6. **Lock all outside doors and windows** before you go to bed or leave the house. Even if it is for a short time.
7. Don't allow daily deliveries of mail, newspapers or flyers to build up while you are away. Ask the Post Office to hold your mail, or arrange for a friend or neighbour to take them in.
8. **Sliding glass doors are vulnerable**, so ensure you fit special locks or shock sensors.
9. Always make sure you have **adequate exterior lighting**. A motion-sensitive light (security lighting) could be a deterrent.
10. **If you have a home alarm system, use it!** Activate your alarm system and remember, Midnight - 4am is **Burglar time!** Has it been serviced and tested? If not then we can help you.

If you have any questions regarding the above or any security alarm matters, please contact a member of our home security team specialists. They will be happy to help you and even offer you an onsite **FREE, NO OBLIGATION** security review.
