## Statutory Notification

### Endymion Road junction with Alroy Road: Pedestrian Accessibility Improvements

Dear Resident,

I am pleased to inform you that the Council will be introducing pedestrian and cycle accessibility improvements to the junction of Endymion Road and Alroy Road. This is in response to representations from the local community to improve conditions for pedestrians and cyclists who often experience difficulties when seeking to cross or access the junction.

The improvements will involve introducing a raised table at the existing roundabout and narrowing lanes where possible to slow traffic negotiating this junction. Full details are set out on the attached plan and consist of:

- Raised junction feature to improve awareness and visibility
- Small traffic islands to narrow the approach lanes (subject to review)
- New coloured paving pedestrian crossing points

This notification letter marks the start of a three week period during which we welcome all comments and representations using the enclosed Freepost feedback card. Alternatively you can email your views to us at [Frontline.consultation@haringey.gov.uk](mailto:Frontline.consultation@haringey.gov.uk). Please enter 'Endymion Road' in the title line of your card or email and ensure that your comments reach us no later than 26 September 2015. If you wish to object to the proposals please give reasons.

If no major objections are received, we will programme the works and notify residents accordingly.

Thank you for your attention.

Yours faithfully,

Tony Kennedy  
Group Manager, Sustainable Transport

NOTES:

All entry points 3m to prevent overtaking

Courtesy crossing

All splitter islands will be subject to vehicle tracking and may be removed or installed as over-runable in final design

Gradually tapered build out for deflection

Entire junction on raised table

Courtesy crossing
