

VISION STATEMENT

COFFEE & COMPUTERS is focused on enabling those with insufficient IT skills to engage with the modern communications environment. COFFEE & COMPUTERS started in Highgate and is now looking to start up other local groups in Haringey

COFFEE & COMPUTERS is predicated on a belief that the SKILLS it imparts

- **are RICH and vital tools**
- **foster HUMAN contact (personal & virtual)**
- **ENRICH lives**

OUR MEETINGS are LOCAL/COMMUNITY based and comprise:

- **Learners & Volunteers**
- **A Group Introduction led by a Meeting Leader**
- **Personal (One-to-One/Small Groups)**
- **Social**
- **Informal**
- **Free**

Though COFFEE & COMPUTERS offers a sociable environment, there is an inherent notion of GRADUATION from the group. Graduates will be encouraged to become Mentors and then Volunteers.

THE SHORT TERM VISION is to run 6 monthly meetings in Haringey. [Achieved].

THE MEDIUM TERM VISION is to *facilitate* other Coffee & Computers start-ups. This will entail finding new leaders and helping them grow their own groups.

THE LONG TERM VISION is to grow beyond Haringey.
